AND THE DRAKA.

In a pumpliet on "The Molical Acts, and the proposal Medical Acts Amendment Bill" (—pablished by Michael & Co., Red Loncourt, Flebrarcot), Dr. Robert Hunter, a physicism of some fine, severely commer the general policy of the Medical Council, and advocates the admission registration, as lepsily qualified per low passes of the month of the Medical Council, and advocates the admission registration, as lepsily qualified per low passes or abroad. The impressions we derive from a persual of the latters and observations which are contained in the pampliet favour the council rather than Dr. Hunter. That he has a case, and lances it strengths to very evident; indeed, he can discrepe the contained in two registration, and for most them are calculated to make the public far for the contained in two registrations are contained in the method of licensing, are far from parfect in practice yours of the results we over to them are calculated to make the public far for the safety; but striving to destroy the reputs of the only corporations the molical profession recognities, can be regarded only as an attempt to recently the convergence of the results we over the work of acciriting regalities for which the public, and the public far for the public and the public and the public far for the public and the p
