No Sunday Program for the Chautauqua. The important announcement has just been made by the management of the Redpath Chautauqua that there will be no Sunday program this year on the big seven-day circuit, which circuit extends from Jacksonville, Fla., to Waukegan, Illinois. This innovation, it is said, will cost more than \$20,000. The test will remain eight days in a place, but will be open to the public only seven.

Russellville Real Estate Sale. Wednesday, May 5th, was a red letter day in the history of Russellville, when 36 business lots and 12 residential lots were sold at public auction at an aggregate price of \$8,000. The Russellville Land Co., composed of Dr. Claude Fuller, president of the First National Bank of Russellville, Jo H. Darr, president of the National Bank, L. S. Sloat, Prof. E. H. Moore and Thomas Brown, were owners of the property and the sale was conducted by the Globe Realty & Auction Co., cooperating with the Quick Sales Realty Co. of Johnson City. A large crowd was present for the sale and bidding was spirited. The highest price paid for a single lot was \$420, it being purchased by John Tyler and Emory Davis. The residence lots are situated around the new school building site and are most desirable. The contract for the school has already been awarded and it will be ready for occupancy next fall. The business lots are also well located and the fact that the lots were all sold at good prices shows that the demand for real estate in Russellville is excellent and that the town is growing.

GREAT REVIVAL

All Churches of City Are Participating in Meeting Conducted by Rev. Luther Bridgers.

On Sunday night announcement was made that the revival which has been in progress for the past week at the Southern Methodist church has been changed to a union meeting, in which all the churches will participate. Services will be held at the Southern Methodist church for the present, but it is expected later to hold meetings at each of the other churches.

Rev. Luther Bridgers, the well known evangelist, is conducting the meeting and it is having excellent results. Rev. Mr. Bridgers is a forceful and plain spoken preacher and his sermons carry with them a message that is convincing to the congregation. There have been a number of conversions thus far and it is expected that before the meetings close a great deal of good will have been accomplished. Large crowds have been attending. On last Sunday night fully one thousand persons were present and the interest is growing daily.

In addition to the services at the church, prayer services are being held at different residences over the city and brief meetings for business men are being held daily at stores in the downtown section. Many of the home houses are also closing during the mornings for the services so that their employees may attend.

A feature of the meetings is the excellent singing. Rev. Mr. Bridgers himself possesses a fine voice and sings at each service, while W. B. Corlier, an evangelist singer, is assisting the preacher and a large choir composed of singers from the different churches, is also taking part. Tomorrow morning at ten o'clock Rev. Bridgers will conduct an old folks meeting, in connection with the revival services. Rev. Bridges' theme for the service will be "The Beatitudes of Old Age" and during the service he will conduct two services which will be the famous and pathetic old song, "What Shall We Do With Mother?" Automobiles are to be provided to convey all the old folks to and from the service and a committee has been appointed to see that every one gets to the service. Also a committee of two young ladies from each church has been appointed to welcome the old folks at the church and pin flowers on them and assist them to their seats.

Friday morning will be school children's service and the city schools are to attend in a body.

Work On New Hotel. Work of excavating on the old Virginia hotel, preparatory to the erection of a modern, five-story hotel, as announced in THE GAZETTE last week, was commenced Monday morning. The part of the old building which still stands will also be torn away as soon as possible and the lot cleared. The new hotel, which will be modernly equipped with electric elevators, steam heat and all conveniences, will contain seventy-five rooms, a large lobby, dining-room and ladies' parlor and sample rooms in the basement. The cost of construction will be \$38,000. The building work will be delivered by Rev. Herbert Booth Smith, pastor of the Second Presbyterian church, of Knoxville, on next Sunday at the First Baptist church. The usual program of class day exercises, etc., has been deviated from by the students. The first, "Two Many Smiths," will be presented on Wednesday evening at 7:30 o'clock. On Thursday evening "Mr. Bob," a delightful comedy, will be presented, after which the diplomas will be awarded. OIL CUMBERLAND STREET

To the Editor of The Morristown Gazette: If the city fathers could do a little something in the way of oiling Cumberland street from the Southern railway to Hill's store, it would be of incalculable benefit to the people of the city. As it is, it is most distressing and a positive menace to health. This street is used more by automobiles than any other street in the city outside of Main street. It is in a perfect condition of dirt at all hours of the day, and the black dust of Cumberland street is enough to kill a dog.

Can't you, won't you please do something? The expense would not be great. If something is not done, the condition of this street is going to cause acute suffering this summer.

New Fishing Bill.

Local sportsmen will be interested in a bill providing how fish may be caught that was introduced in the State legislature by Representative D. A. Greene and passed both houses. The bill has not yet been signed by the governor, which is necessary before it becomes a law, but it is probable that the governor will take favorable action on it within the next few days. The bill provides for the following: Section 1. Be it enacted by the General Assembly of the State of Tennessee that the sections relating to the catch and take fish from any of the public streams in the counties herein embraced, by rod and line, hook and sinker or net, provided, that the meshes of the net be at least one and three fourths inches square, and the mesh of the basket one and one half inches apart.

Section 2. Be it further enacted, That no net be lawfully in use in any of the public streams of this state until the first of the following April of each year, but it shall be unlawful to fish in the market one and one half inches apart.

Section 3. Be it further enacted, That there shall be no fees or license exacted from the resident citizens of the counties coming under the provisions of this act when fishing for home consumption or sale in said counties when fishing in accordance with the provisions of this act.
